- 91% to 87% is amber status
- 86% and below is red status

### The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

**Smart Targets:** 

Hello Sasdet, Your portfolio has units 007, 010, 013 and 020 in it but they have not been signed off. I would like you to have these units completed and signed off by 09 Nov 2011. You have shown me two good practice joints. I would then like you to consider completing the assessment for Unit 037 mortice joint or Unit 040 centre bridle joint by 19 Oct 2011.

Review Term: Autumn

Review: Saadet has shown great improvement in his vocational subjects that must show the same enthusiasm in he is functional skills in maths and English

Issues Raised: Saadet is way ahead in painting and decorating vocational he helps out with showing the other students what to, do very good mentoring. But you must work on his attendance and punctuality. I would like to see him work harder on the sports programme.

Review:

The group has been working on the following practical tasks over the last 8 weeks;

Know how to comply with safe working practices in a painting and decorating environment. Know how to prepare and maintain a work area. Use and maintain tools and equipment. Know how to prepare one surface for application of materials. Apply materials to prepared surface. Identify hazard warnings on paints and glazes. Identify hazards in the work area and eliminate as work progresses. Select and wear appropriate protective clothing. Select suitable brushes, tools and accessories and prepare for use. Select and prepare suitable paints and glazes according to given instructions. Assess suitability of background for given effects. Identify the following effects: rag rolling, colour washing, bagging, dragging, combing, stipple, sponging, stencil and decorative motifs, ragging on.

Saadet as done well with the practical work and is about to progress to the final stage of the project which is wall papering.

Saadet's behaviour has generally been good while he has been working in Painting and Decorating and is showing signs of improvement however he needs to transfer this good behaviour to all his classes before moving on to the next unit of the course which will be Brickwork.

#### Issues Raised:

The class has been studying ICT Functional Skills at Level 1. So far, the following have been covered: locating and evaluating appropriate information, selecting appropriate software, presenting information in ways that are fit for purpose and audience, entering and editing data.

Saadet's attendance on this course has been poor, consequently he has produced very little work in either this class or my English class. Saadet has often displayed an extremely uncoperative attitude. On numerous occasions he has had to be asked to engage fully with his studies and not to allow himself to become distracted by the more disruptive element within the class.

If Saadet is to achieve any qualifications he will need to attend all his lessons on time, start producing some work and concentrate fully on his studies.
