# The College of Haringey, Enfield and North East London

# **Learner Review**

08 March 2012

**Learner: Aaron Gaylard** 

**Personal Tutor: Mario Amico** 

## **Key to Attendance and Punctuality percentages**

- 100% to 92% is green status
- 91% to 87% is amber status
- 86% and below is red status

#### The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

#### **Comments / Reference / Targets**

Aaron has worked really well this term and has produced some good work in both his practical and theory lessons. We have been working towards the practical assessment for unit 5. Aaron has passed the assessment and achieved a pass mark. He has now completed about 70% of this unit and is up to date with all the work. Aaron has been a joy to teach and always turns up with the right attitude and with a smile on his face. Well done

Mark Furneaux.

#### **Comments / Reference / Targets**

Aaron started to do carpentry at the end of April and it takes time to get used to using the vast amount of tools that carpenters use.

A great amount of eye hand co-ordination is needed to use the tools accurately.

The first project that the learner undertakes is a Galleon, during this project the learner has to use a wide range of tools which include the following marking out tools:-

Ruler, pencil, marking gauge, try square, combination square, marking knife and a compass.

After marking out the Galleon the learner has to use the following tools to make it:-

Jack plane, smoothing plane, Rebate plane, Tenon saw, Panel saw, Coping saw, chisels and a Drill.

Aaron demonstrates an understanding of using the tools and just needs to hone and practice the skills that he has learnt.

Ron Leek.

## Comments / Reference / Targets

Keep taking your notes which you will need so much to help you with the Unit

Smart Targets: 103 on-line exam which i am entering your group to sit just before the

christmas break.

You seem to keep yourself to yourself. You seem to be getting on well with

Comments: theory also with your practical work. You are doing very well with your

attendance and punctuality in every session apart from FS Maths which is poor. You need to attend FS Maths as it is part of your course. Keep trying.

poor. You need to attend F5 Maths as it is part of your course. Keep trying

#### Comments / Reference / Targets

Your theory work is good and in practical I would like to see you take a little Smart Targets:

Your theory work is good and in practical I would like to see you take a little more care. So when you are finishing your next task ensure all your cuts are

neat and everything is level but you are making steady progress.

Comments: Attendance and punctuality is very good, keep it up.

Derek Munro.

#### **Comments / Reference / Targets**

Aaron is a reserved member of the group who displays interest in the subject and participates with enthusiasm. He is developing a good general construction knowledge and is often willing to share his ideas with the rest of the class. He has reasonable attendance, but could improve so that he does not miss out on teaching. The general quality of his written work has been satisfactory to good, both in terms of content and presentation. He should aim to maintain and improve on the high quality of his work next year and I hope he can sustain his current interest in and enthusiasm towards construction. Overall, a very good start to the course - keep up the good work!

#### **Comments / Reference / Targets**

For this term the students have been carrying out Brickwork for their practical unit. They have been working towards the practical assessment required to pass the unit, from basic bricklaying techniques through to a completed wall.

Aaron has worked hard this term and has produced some good work. He is very willing to learn. Aaron is a quiet student but gets most of the work done to a good standard. He particularly enjoyed the session where the learners had to build stuctures out of bamboo sticks and elastic bands. Keep up the good work.

His target is to continue to improve his hand skills so he can achieve the practical assessment early in the new year.

Mark Furneaux.

### **Tutor Review**

#### **Comments / Reference / Targets**

Review Term: Autumn/Spring/Summer

Review:

#### Issues Raised:

Aaron is an able and conscientious member of the group who displays a real interest in the subject and appears to enjoy all aspects of the work. He is building up his construction knowledge quite well with a number of further assignments compleded. However, although the quality of his answers is usually very good, he needs to work on the presentation of his written work. Aaron needs to continue to work towards gaining good assignment marks for the remainder of the course. Overall, a very good first year so far, keep up the good work!

Damian McGeary.

Review Term: Autumn 2010

Review: Tutor review/construction theory

#### Issues Raised:

Aaron is an able and conscientious member of the group who displays a real interest in the subject and appears to enjoy all aspects of the work. He is developing a good general construction knowledge and is usually willing to share his ideas with the rest of the class during discussion. Aaron has completed a number of units in the last year and is now working towards the examination in 'Unit 4, Structures'. However, his written work, while usually acceptable, is rarely as detailed or as well presented as I would wish. I hope he can sustain his current interest in and enthusiasm towards construction however he should try to improve the presentation of his written work. Overall, Aaron is progressing well through the course. Damian McGeary.

Aaron has continued to work quietly and conscientiously throughout the course. All his remaining time and effort should now be devoted to completing his coursework portfolio and especially his project before the deadline in April. He should also make more of an effort to produce work in a timely fashion as there is only a short few weeks remaining on the course. Aaron is capable of achieving the diploma but only if he makes an extra effort in the short time left.

Damian McGeary.

Review Term: Autumn/Spring/Summer

Review: I am pleased with you because you have been really trying in practical. At the moment I see no problem with your theory you are quite academic. Well done.

Issues Raised: Your attendance as improved greatly. Keep up the good work wink

Gary Waldon.

Review Term: Spring

Review: aaron is a hard working learner, who arrives early for class every time, he has good reading and writing skills and i am confident that he will pass his FS english exam.

Issues Raised: could intergrate with his peers more.
