The Learner Review Procedure

Each learner will have met with their Personal Tutor for a 1 to 1 review to discuss the progress they are making at college and any specific support they may require to help them achieve their targets and qualification.

As part of the review each Subject Lecturer completes a report and then the Personal Tutor summaries these in the Personal Tutor Summary. Targets are then set for each learner.

You are at the final stages of your chosen course in hairdressing, at this stage you only have a minimal number of outcomes to be achieved. As the New Year has approached us your academic year will end before you know it, so I strongly advise you to think SMART by

Sending out broadcasts tweets to your family and extended friends to be models for you or your pears to gain assessments

Approach people on your everyday travels with your specific needs

Enquire at the style zone for additional sessions for maximum assessment opportunity

Book your reception duties ASAP so the unit can be signed off

Use city and guilds revision tasks when preparing for exams in order for maximum results

Arising

If you are considering in progressing onto level 3 hairdressing or any other course in the college you are required to adhere to the colleges minimum target grade of 87% attendance, so my advice to you is to attend every session if you would like to see yourself enrolled on a course in September 2012!

Jourdain needs to attend regularly to classes to prevent falling behind in both theory and practical lessons, we have agreed in the tutorial classes on the areas needing to improve.

Skills in the practical lessons are good but needs to catch up on the Colouring units for when we start clients in the practical sessions as this will help her skills, confidence and will allow her to be ready for the coming assessments.

Jourdain will need to start revising on unit GH8 in preparation for coming exams.

Jourdain shows a lot of interest in finishing this course, has good plans for the future for Barbering and i believe she can do this as she stays focus.

Jourdain is a lovely person and a joy to teach

Jourdain - she had started very enthusiastically and sadly it has not continued with the same vigour. Attendance is fairly good and on time for class which is good. She is currently working on H7 he is finding the cutting of uniform layer cut challenging as all the students are but he is not getting on with it in class and waiting for me to asked what's going on or are you finished. Usually due to outburst of laughter or un lady like language and just disruptive conversations. When on her own she can work but with frustration she gets on and has outburst of "I don't get it" but after weeks of I feel her own deliberation she did finally decided to ask for help as she done in the past only this time really listened which I believe was only because she was on her own and had no one to distract her. Now has the grasped the technique for a uniform layer cut but needs to practice in her own time. I have spoken to her that homework is an essential part of the course but has not done any task I have assigned as homework. I hope that she can develop without being distracted as it seems to be the main thing holding her back and should this not change I fear she will not complete this course. Concentration is needed from her and lots of practise.

Review:

Well done Jourdain on finishing your exams, you must now focus on finishing the work skills by meeting deadlines set by the group as the unit must be completed 1st week in February.

There has been a great improvement on your practical work and you have worked very hard by keeping and meeting set target giving to you.

keep up with the good work and stay focus as you are doing well so far.

Issues Raised:

Am still concern on your attendance and punctuality to all lessons as this can affect your progression on this programme, I will advice you to reed the code of conduct and the agreement that we had in tutorial on attendance and punctuality as this is an issue that keeps coming back, we will review this on a one to one tutorial.cool
